4 SENSES LOUNGER

4 SENSES LOUNGER

A NEW WAY TO INDULGE IN DEEP RELAXATION

SEE – HEAR – FEEL – SMELL

Experience a unique, multi-sensory voyage into the world of deep relaxation and well-being, whilst activating the 4 senses.

LIE DOWN – CLOSE YOUR EYES – LET GO

The light of the 4 Senses Lounger gives you a sense of security and warmth.

The warm, softly vibrating surface has a soothing effect on the body.

The special sound composition and the gently released fragrance leads to a state of meditation.

SEE
LIGHT THERAPY AND CHANGE OF COLOURS

The illuminated reclining area is equipped with an RGB light changing device which is based on the concept of TCM (Traditional Chinese Medicine). The colours are perceptible even with closed eyes.

TCM –water: According to TCM, blue and green are the colours that relate to the element water. The programme is a perfect combination of green and blue lights, soft sounds, fragrance and a softly vibrating surface, this combination encompasses the element water.

TCM – elements: The user may opt for a colour composition that includes the entire spectrum of colour in combination with a relaxing sound.

FEEL
STIMULATION OF THE MERIDIANS

The sound concept features membranes that are positioned in a way that allows a stimulation of those meridians that activate Chi, the energy of life.

HEAR
SOUND CONCEPT BASED ON TCM

The 25-minute sound concept is based on the knowledge of the Traditional Chinese Medicine stimulating the element water and activating Chi, the energy of life.

SMELL
AROMATHERAPY

The holistic experience is intensified by the emission of subtle fragrances in perfect harmony with both light and sound.

ADVANTAGES FOR THE GUEST

- Holistic relaxation by the stimulation of the four senses
- Deep relaxation within 25 minutes
- Very efficient recovery after e.g. a stressful journey
- Good way to get away from everyday life
- Perfect compliment for massages and other spa treatments
- Improvement to the flow of energy through stimulation of certain meridians.

ADVANTAGES FOR THE OPERATOR:

- Profitable and extraordinary alternative to conventional relaxation beds
- Plug in & Relax - easy to install into existing rooms
- Low staff and operating costs
- Real added value for the guest, who are prepared to pay extra for the experiences of the 4 Senses Lounger
- Fast return on investment
- Promotionally effective eye-catcher
- Perfect compliment for massages and other spa treatments
- Increases efficiency in spa treatment area in terms of workflow and occupancy

INNOVATIVE SPA SOLUTIONS

HOLISTIC COCOONING

WELCOME TO THE FUTURE

SEE — HEAR — FEEL — SMELL

Holistic Cocooning, is the concept of a holistic treatment stimulating the four senses. It has been influenced by scientific medicine, TCM and our expertise in spa treatments.

The concept of Holistic Cocooning is based on the Teaching of the Four Temperaments. Depending on his or her individuality and the respective situation, each person is a mixture of these temperaments. An analysis of more than 40 questions will determine the guest's current emotional condition, which provides the basis for their personal treatment ceremony.

This individual treatment includes a personal colour and aroma therapy, an especially composed concept of lights and sounds based on TCM, along with a healthy wet pack treatment.

A TREATMENT BED THAT APPEARS TO BREATHE

In order to achieve a state of deep relaxation, we use a special medical device to stimulate the guest's respiratory rhythm. During the treatment the air-filled relaxation bed sways gently, allowing the guest to reduce his respiratory rhythm.

This holistic concept guarantees a sensation of perfect relaxation and vitality.

THERAPY CONCEPT BASED ON THE TEACHING OF THE FOUR TEMPERAMENTS:

A comprehensive analysis determines the current emotional condition and character of the guest.

The 25-minute therapy programme includes an especially composed three-dimensional sound concept, a matching light and aroma therapy, along with especially developed visual effects. This unique and holistic concept encourages positive emotions and appeases negative emotions.

WET PACK & BODY WRAP TREATMENT:

A selection of five high-quality wet packs and body wraps allows for a wide variety of treatments. In contrast to the conventional spa treatment bed where the guest usually lies in a low, narrow position, the Holistic Cocooning Bed features a very comfortable, easy to clean area for reclining. According to the respective treatment, the reclining area may be heated or cooled.

You can offer a particular treatment using a special foil that is wrapped around the body. The firmness of the reclining area may be adjusted to the respective needs.

STATE OF DEEP RELAXATION WITH THE RESPIRATORY RHYTHM DEVICE:

A special medical device that has an influence on the respiratory rhythm enables the guest to reach a state of deep relaxation.

The warm, air-filled reclining area features a rhythm device that reduces the guest's respiratory rhythm from the usual rate of twelve breaths per minute, to ten, or in some cases eight breaths.

THE HOLISTIC COCOONING ROOM CONCEPT:

The Holistic Cocooning room concept can either be integrated within existing rooms or installed into a new building.

The Holistic Cocooning room creates an even more intense perception of visual and sound effects, over a normal spa room

HOLISTIC COCOONING

**THE ULTIMATE TREATMENT CONCEPT
FOR THE MODERN SPA**

ADVANTAGES FOR THE OPERATOR:

- Holistic Cocooning involves a significant increase in turnover – with one single treatment you can double, even triple the turnover of a traditional massage
- Holistic Cocooning as a profit centre – If the room has a capacity utilization of forty per cent, the return on investment will be achieved in only six months.
- Thanks to its multifunctional application, Holistic Cocooning offers a wide range of services and enormous flexibility as regards to the combination of treatments.
- Efficient labour utilization due to easy operation and multifunctional use
- Significant reduction of costs due to efficient energy management
- Easy cleaning and maintenance
- Space-saving – fits in most conventional spa treatment rooms
- Holistic Cocooning represents a strong USP
- Holistic Cocooning is the perfect completion to a spa suite

ADVANTAGES FOR THE GUEST:

- The Teaching of the temperaments helps the guest to recover their mental balance.
- The reduction of the respiratory rhythm will result in a state of deep relaxation.
- Wet packs and body wraps have the following positive effects: purification of the body, cleansing and tightening of the skin, stimulation of cell production, relaxation of the muscles.
- Degree of firmness and temperature of the spa treatment bed can be adjusted to the respective needs.
- The guest can enjoy the treatments (especially wet packs) in a comfortable position, as the Holistic Cocooning bed is wider than a conventional wet pack bed.
- The entire Holistic Cocooning treatment is a unique experience that stimulates the senses.
- Holistic Cocooning has a sustainable positive effect on body, mind and soul.

AQUAVEDA THERAPY TABLE

MULTIFUNCTIONAL-BESTSELLER

**WHEN IT COMES TO TOP-QUALITY SPA EQUIPMENT,
THE AQUAVEDA THERAPY BED IS DISTINCT, DUE TO ITS
MULTIFUNCTIONAL RANGE OF APPLICATIONS**

The multifunctional aquaveda therapy bed inspires guests, therapists and operators alike.

One spa treatment table can be used for a great number of spa treatments, which results in a significantly higher utilization capacity. The aquaveda therapy table may be used for oil massages and other oil treatments, soap brush massages, traditional massages, vichy showers, as well as hot stone treatments, special wet packs and body peelings.

THE MOST ECONOMIC APPROACH TO PURIFICATION AND RELAXATION

The aquaveda therapy table (aqua + ayurveda) represents the highlight among your spa equipment, allowing your guests to indulge in the unique experience of well-being. The INVIION® aquaveda therapy bed finally shows that not every single treatment has to be carried out in a different room, and that the spa operator does not need to constantly invest in additional special spa equipment.

OIL MASSAGES

Essential oils are used for Indian oil massages

AYURVEDIC OIL TREATMENTS

Shirodhara is an Ayurvedic treatment, where oil is poured onto the forehead from a special pot. This has a stimulating effect on the Third Eye, which is said to be the body's energy centre.

TRADITIONAL OIL MASSAGES

The innovative and ergonomic design of the Aquaveda therapy bed turns the treatment into an agreeable experience for both guest and therapist.

SOAP BRUSH MASSAGES

The soap brush massage is a delightful experience, offering a number of positive effects to your skin.

VICHY SHOWER

The whole body is stimulated by fine water jets. This is a special massage experience which has a stimulating effect on certain energy centres.

HOT STONE TREATMENT

Depending on the disorders, heated volcanic rocks are put on certain energy lines (meridians) encouraging the body to heal.

WET PACK TREATMENTS

Wet wrap treatments provide the body with active-ingredients which are selected according to the respective needs, having a healthy effect on the body.

BODY PEELINGS

The body is rubbed with special granular active-ingredients. This treatment activates the blood circulation and helps to remove dead skin cells.

AQUAVEDA THERAPY TABLE

ADVANTAGES FOR THE OPERATOR:

- Great flexibility as regards to the range of spa services and treatments
- The wide range of treatments guarantee an enhanced utilization capacity
- Fast return on investment
- The modern and neutral design is in line with any given ambiance of a room
- Flexible integration in the spa concept. May be used as an individual spa treatment or in combination with other treatments (spa ceremony)
- Very easy to clean – even after wet pack treatments – saving time and money
- The individual adjustment of the treatment position is very convenient for the therapists

ADVANTAGES FOR THE GUEST:

- Deep relaxation
- Helps to solve energy blockage
- Assists blood circulation
- Relaxation of the muscles
- Purification
- Deep-cleansing skin care
- Improvement of the flow of energy
- Alleviation of stress and tension
- Activation of the metabolism
- Strengthening effect on tissue and blood vessels

INNOVATIVE SPA SOLUTIONS

FOOT REFLEXOLOGY BATH

THE MOST GRATIFYING WAY TO PAMPER YOUR FEET

WE WILL “GO” NOWHERE WITHOUT OUR FEET.

Our feet are a sensitive and effective point for therapeutic and soothing treatments. The foot reflexology bath represents a highly-efficient therapy and a soothing experience that initiates a number of positive effects on the body.

THE IDEAL COMBINATION OF RELAXATION AND HEALTH PREVENTION

The foot reflexology bath is equipped with six special massage jets, providing 15 minutes of positive stimulation to specific regions of the feet. The foot reflexology bath may be used as an independent foot reflexology therapy or in combination with other spa treatments. The foot reflexology therapy can be combined with special aromatherapy oils which are applied in order to care and protect the skin.

THREE DIFFERENT THERAPY PROGRAMMES

You can choose from three different reflexology programmes, each of which lasts fifteen minutes: Stimulating, vitalising and relaxing. Each programme has different foot reflexology intensity, a combination of fragrances and visual effects.

AROMATHERAPY & COLOUR LIGHT THERAPY

- The water is enriched with essential oils which emit a pleasant fragrance and have a caring effect on the skin.
- The multicoloured LED lights are reflected in the water, creating a spectacular visual effect thereby contributing to the soothing effect of the spa treatment.

AUTOMATIC CHANGE OF WATER

We give top priority to hygiene. Each treatment is followed by a fully automatic change of water. An extensive disinfection of the foot reflexology basin is carried out automatically once a day.

INNOVATIVE TECHNOLOGY AND MODERN DESIGN

The reflexology bath features especially designed moulds which are based on the knowledge of a Traditional Chinese Medicine. The bath guarantees an ideal foot reflexology treatment for your guests, The modern oval shape can be integrated into all types of rooms. The foot reflexology bath caters for the guest with shoe sizes from 5 to 12.

FOOT REFLEXOLOGY BATH

ADVANTAGES FOR THE OPERATOR:

- The foot reflexology bath may either be used as a single treatment or in combination with a ceremonial spa treatment. This guarantees high capacity use.
- Due to the effect of preventative health care and vitalisation the treatment will achieve a higher selling price.
- The foot reflexology bath can also be installed in small areas, which are unable to be used for other spa equipment (e.g. niches, aisles).
- Plug in & use installation, preconditions: power supply, water inlet, and drain pipe – no tiling necessary.
- The new foot reflexology bath can easily be installed in existing spa areas/rooms.
- Foot reflexology baths represent spa equipment that is both popular and easy to use.
- The foot reflexology basin is a promotionally effective eye-catching and current design object. We offer a wide selection of colours.

ADVANTAGES FOR THE GUEST:

- The reflexology treatment has a harmonising, balancing and strengthening effect on the following parts of the body: Small intestine, stomach, pancreas, liver, heart.
- Three different foot reflexology programmes, a variety of skin caring essential oils, guarantee a perfect vitalisation to the guest's feet.
- The energy-saving LCD colour programme is integrated into the bath, creating a unique ambiance.
- Outstanding hygienic conditions
- Ultimate comfort through ergonomic design

INFINITY SOLO POOL

THIS INNOVATIVELY DESIGNED POOL GUARANTEES ABSOLUTE RELAXATION

EFFECTIVE VITALIZATION STIMULATED BY WATER

You are tired, exhausted or tense. Close your eyes, feel how the warm water and massage jets release the tension from your muscles. The ergonomic design makes it easy to relax and unwind. Agreeable fragrances and lights encourage positive emotions, unobtrusive background music, plays quietly in the background. It is just wonderful, lie back relax and enjoy the experience.

This scenario is not wishful thinking, it is how many guests and clients describe the effect of the Infinity Solo Pool by INVIION®. They consider it the perfect form of relaxation.

Our modern society has a growing concern for health care and preventative health care, treatment pools are becoming an important form of relaxation. The Infinity Solo Pool by INVIION® is one of the most trendsetting and innovative example of its kind. It has a vitalizing effect, not only on the body and mind of the user, but also on the financial situation of its owner.

RELAXATION OF THE MUSCLES

There are three different 15 minute programmes to choose from: Stimulating, vitalising and relaxing. Each programme has a different massage intensity, combination of fragrances and visual effects.

The relaxation of the muscles is achieved by

- The effectiveness of the massage jets (back jets/water jets and side jets/ combination of air and water)
- An ergonomic sitting position, due to the especially designed bath
- A warm and inviting water temperature

MENTAL RELAXATION

Agreeable fragrances, soothing visual effects and unobtrusive background sounds make it easy to relax and unwind.

- Colour Light Therapy programme with energy-saving LED spots
- Infinity water edge

WE GIVE TOP PRIORITY TO HYGIENE

Body fats and dead skin cells (including bacteria) are dissolved in the water and washed away via the unique low-lying spillway. This creates an outstanding sensation of cleanness.

Each bathing session is automatically followed by a disinfection procedure – an extensive disinfection is carried out automatically once a day.

- Fully automatic disinfection follows each session
- Extensive disinfection – once a day. Fully automatic, even outside spa operating hours

ECONOMIC OPERATION

Thanks to state-of-the-art technology, the temperature of the water is thermostatically controlled, there is no need for an expensive auxiliary heating system.

INFINITY SOLO POOL

ADVANTAGES FOR THE OPERATOR:

- The Infinity Solo Pool by INVIION® offers the perfect combination of a healthy treatment, unique experience and excellent visual design.
- Ideal complement to other spa treatments
- Perfect addition to spa suites and hotel spa suites
- Low maintenance: fully automatic disinfection follows each treatment
- Economic operation: thermostatically controlled water temperature – no expensive auxiliary heating system needed

ADVANTAGES FOR THE GUEST:

- Mental relaxation assisted by light, sounds, fragrances and water
- Relaxation of the muscles due to the ergonomic position, massage jets and pleasant water temperature
- The hidden edge of the bath creates the visual effect of an infinity of water. Giving the illusion of a clear line between the water and the environment.

INNOVATIVE SPA SOLUTIONS

HEATED LOUNGER

LIE BACK, CLOSE YOUR EYES AND RELAX IN HEALTH GIVING WARMTH

Take your place on the INVIION® Heated Lounger and enjoy the comfortable feeling of soft radiant warmth directly on your body. For millions of years every organism on Earth has depended on the warmth of the sun. The radiant warmth of the heated lounger feels similarly beneficial. Muscular tension and cramps are relieved, rheumatic pains are alleviated. Soft radiant warmth brings harmony to your entire being. Ambient music deepens the sense of total relaxation.

MODERN DESIGN COMBINED WITH TOTAL COMFORT

The INVIIION® Heated Lounger does not only impress due to its health-giving radiant heat. Smart construction using glass-fibre reinforced synthetic material means it is also extremely slim. This, together with the use of soft curves, achieves a contemporary effect.

Ambient LED lighting adds an additional dimension to the sense of well-being, both on the lounger and in the surrounding area. The ergonomic form of the "Relax Lounger" invites the guest to linger.

MAINTENANCE-FREE, QUICK AND SIMPLE INSTALLATION

With the Heated Lounger, no ongoing maintenance is necessary. Cleaning is very simple due to its construction from smooth synthetic material. The subtle inclination of the surface means that water flows outwards. Installing the Heated Lounger is child's play and requires only connection to a power supply.

UNBEATABLE ECONOMY

Efficient construction and high-quality materials with effective heat storage means economy of operation. Due to the Plug in & Relax installation, no further technical or monetary investment is necessary.

INDIVIDUALITY COUNTS

There are no limits to flexibility in the choice of colours, surface materials and surface designs. Extensive testing was carried out in our internal research centre to develop a Heated Lounger that provides a high level of comfort for people of different body shapes.

HEATED LOUNGER

ADVANTAGES TO OPERATOR:

- Design orientated Heated Lounger with ambient LED lighting effect
- Economy through use of effective heat storing materials and energy efficient operation
- Heated Lounger with healthy radiant heat
- Highest level of comfort due to the ergonomic design
- Plug in and Relax installation
- Easy to clean due to construction from smooth glass-fibre reinforced synthetic material
- No maintenance of the Heated Lounger necessary
- Selection of different colours of Lounger and surface materials available
- Selection of different surface designs available

ADVANTAGES TO GUEST:

- Comfortable and soothing radiant heat
- Effective relief for a multitude of complaints
- A sense of wellbeing and total harmony
- Highest level of comfort due to the ergonomic design

INNOVATIVE SPA SOLUTIONS

HAMMAM TABLE

ORIENTAL BATH RITUAL

Hamam is a bathing ritual in which a traditional oriental soap brush massage plays a central role. It is a soothing, deep cleansing treatment which, at the same time, detoxifies the body and promotes healthy circulation. The skin is exfoliated and the pores are flushed clean of all impurities.

The skin is refreshed by the soap brush massage. The skin becomes soft and supple, it looks cared for and glows with health due to the improved circulation. The soap brush massage is the perfect preparation for a visit to the sauna.

The aromatically enriched, pH-neutral lather is massaged into the skin with a brush. A wide range of fragrances are available. Depending on the desired effects, many different brushes and peeling gloves are used. After the massage, the soap is either removed by hand or rinsed away with warm water.

After approximately 25 minutes of treatment, the body is pampered with one final care treatment – for example the application of various body lotions.
